Village Creek State Park

Unrivaled ecological diversity

Trek through Village Creek State Park and encounter life in rare variety. Yucca and prickly pear cactus grow only a short walk from swamps of cypress and tupelo. Wood ducks feed in backwater sloughs as a hooded warbler sings from a nearby tree. From towering longleaf pines to small carnivorous sundews, park life presents a wondrous array of contrasts.

STAYING SAFE

KNOW YOUR LIMITS. Prepare for sun and heat. Wear sunscreen, insect repellent and appropriate clothing/hiking shoes.

DRINK PLENTY OF WATER. Your body loses fluid quickly when you’re on the trail. Bring a quart of water per hour of activity.

TELL OTHERS WHERE YOU’LL BE. If possible, avoid exploring alone. Tell someone where you are going and when you plan to return.

WEAR A HELMET. When mountain biking, check with park HQ to match the trail to your skill level. Wear a helmet to protect yourself in case of a crash.

CHECK FOR TRAIL CLOSURES. Certain trails may be closed during prescribed burns or for other resource management work.

POTENTIALLY HARMFUL PLANTS AND ANIMALS LIVE HERE. You’ll see them more easily if you stay on trails.
