Lake St. Catherine State Park

Lake St. Catherine State Park has long been a destination for visitors seeking an area to relax, refresh and recreate. The 117-acre park has been operating since it opened as a picnic and swimming location in 1953 on the shore of picturesque Lake St. Catherine.

The park offers a variety of recreational opportunities for campers and day-use visitors alike. These include a 61-site campground, nature center, two sandy beaches, a large grassy field including a children's playground and a snack-bar concession with boat rentals. A boat launch is available for those seeking a day of fishing or water skiing on the lake.

Lake St. Catherine provides excellent fishing opportunities for anglers of all skill levels. Panfish, largemouth and smallmouth bass, rainbow and brown trout, yellow perch and northern pike can all be found in the lake's calm waters. Lucky visitors may catch a glimpse of a white-tailed deer or even an occasional moose. Interpretive staff offer programs and staff the nature center.

Other recreational opportunities include a short multi-use hiking/mountain biking trail and a full, 18-hole disc golf course.

Before state ownership, the area comprising Lake St. Catherine State Park consisted of a summer camp for boys and farmland. Remnants of these past activities can still be found within the park.
