Winter Fat Tire Bike Trails: Temp Map

The information shown on maps may have been obtained from various sources, and is of varying age, reliability and resolution. Maps are not intended to be used for navigation, nor are maps an authoritative source of information about legal land ownership or public access.

2025

Coordinate System: NAD 1983 2011 Wisconsin TM

Beginner Trails (Green) - Suitable for anyone who can ride a bike, generally smooth and wide with gradual elevation.

Intermediate Trails (Blue) - Suitable for riders with experience, surface is varying with obstacles such as roots, rock gardens, jumps/drops, berms, and steeper grades.

Advanced Trails (Black) - Suitable for advanced riders, surface is varying with advanced features such as; rock gardens, jumps/drops, berms, and steep grades.

Warning: These are two way trails with relatively good sight lines, be aware riders may be coming towards you and be respectful.

Intersection / Emergency Access ID - Mountain biking is inherently dangerous, ride at your own risk. In case of emergency, be aware of which intersection you are closest to so emergency responders can reach you as quick as possible.
